

TRIGGER ELECTRONICS

ACTIVE BRAKE MOSFET

FEATURES

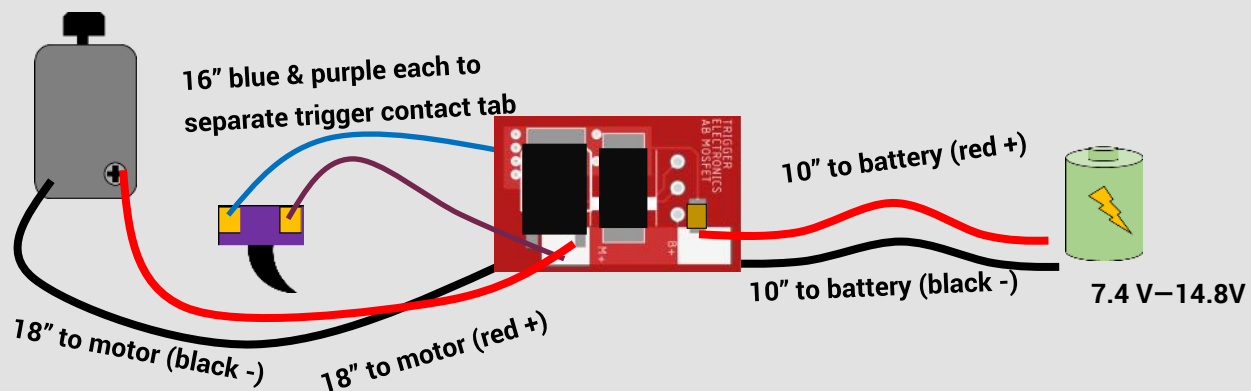

- ON/OFF Controlled Active Brake
- Full MOSFET Protection
- Realistic trigger stopping**
- Included: AB-FET with all necessary wiring, 2x motor connectors
- Decreased gearbox wear*
- Rated for 7.24V–14.8 V Batteries

CONTROL

ON/OFF Switch for Active-Brake

INSTALLATION

* Do not use without anti-reversal latch

** Active Braking is most effective with a high-torque neodymium-magnet motor.
